UNIVERSITY OF RUHUNA

1.1 Introduction

University of Ruhuna was established on 1st September 1978, as Ruhuna University College by a Special Presidential Decree. Currently, University of Ruhuna comprises of ten faculties, namely Agriculture, Engineering, Fisheries and Marine Sciences & Technology, Humanities and Social Sciences, Management and Finance, Medicine, Science, Technology, Allied Health Sciences and Graduate Studies.

Faculties of Humanities and Social Sciences, Fisheries and Marine Sciences & Technology, Management and Finance, Science and Graduate Studies are located at the main University premises at Wallamadama (Matara). Faculties of Agriculture, Technology, Engineering, Medicine and Allied Health Sciences are located in Mapalana(Kamburupitiya), Kargoda,Uyangoda(Kamburupitiya), Hapugala (Galle) and Karapitiya (Galle) respectively. The central administration unit of the University is also located at the Wallamadama University complex.

The University offers Bachelor, Master and PhD degrees in their respective disciplines. In addition, Diploma and Certificate courses are conducted in various disciplines. At the first recruitment of the University of Ruhuna for the Bachelor's degree programmes in 1978, a total of 272 students were enrolled and in the year 2019 it has been increased to 9239 students, across nine faculties (Table 1.1), recording its fast growth during the past four decades.

1.2 Location of the University

The University of Ruhuna (main premises) is located 4 km away from Matara along the Colombo Hambantota (A2) main road Matara (Sinhala: මතරා Tamil: மாதத்துறை) (originally Mahathota) is a city on the Southern coast of Sri Lanka, 160 km from Colombo. Matara historically belongs to the area called Ruhuna, one of the three kingdoms in Sri Lanka. First Indians who arrived to the island country according to the Mahawansa settled in the area, along the banks of Nilwala River.

Traveling from Colombo to Matara can be made either by train or buses. There are only a limited number of trains. However, buses are available every half an hour through the normal route or expressway. The journey through normal route takes about four hours from Colombo while one and half hours through expressway. Matara is one of the main railway stations and exit in Southern expressway (Palatuwa).

ORGANISATIONAL STRUCTURE OF THE UNIVERSITY

CHAPTER 2

FACULTY OF TECHNOLOGY

2.1 Introduction

Faculty of Technology (FOT) was established under the gazette notification issued, on 26th April 2016, as the 9th Faculty of University of Ruhuna to fulfill the requirement of providing university education to students following Technology subject streams during the GCE Advanced Level. The faculty offers three honors degrees at level 6 of Sri Lanka Qualification Framework (SLQF). The degree programmes that are offered currently are Bachelor of Engineering Technology honors (BET), Bachelor of Information and Communication Technology honors (BICT) and Bachelor of Biosystems Technology honors (BBST). These are conducted under four academic departments: Department of Engineering Technology (ET), Department of Information and Communication Technology (ICT), Department of Biosystems Technology (BST) and Department of Multidisciplinary Studies (MDS). The Department of Multidisciplinary Studies offers courses for all the students following three major degree programs. It is focused on developing professional skills required for Technology Students. All the three-degree programs are four years (8- semesters) in duration and will be accredited with relevant professional bodies. Further, a six month long industrial training is a mandatory requirement for successfully completing the degree program.

The faculty is located at Karagoda Uyngoda, Kamburupitiya, in a serene landscape about 20 minutes away from the Godagama-Palatuwa and Kapuduwa exits of the southern expressway. The Faculty of Technology initially occupied the buildings of Faculty of Science at Wellamadama, Matara with the first intake of students in December 2016. It was moved to its current permanent location in August 2018 with the partial completion of the construction of four stories laboratory complex, hostels and renovating some existing old buildings for administrative purposes. At present the faculty consists of a four storied laboratory complex equipped with modern laboratory facilities designed for skill development and technology education of students, lecturehall building complex with auditorium, a library, facilities for sports activities and recreational activities, hostel facilities for 800 students and university housing for the staff.

All the teaching learning activities of the faculty are mediated through the FOT Learning Management System (FOT LMS). Students can access course information sheets, lecture notes, recorded(audio/video) lectures, reading materials and past papers of each course units registered for a semester from the FOT LMS. Some assessments may also be conducted through the FOT LMS. Further most of the administration processes are automated through the Faculty of Technology Management Information Systems (TECMIS). Students are required to register for course units at the beginning of each semester and register to sit for the end semester examination during the stipulated time period through the TECMIS. The grades obtained for each course unit followed are also available in TECMIS. Students' attendance, and submission of medicals are also managed through the TECMIS. Wireless internet access is available for students on their registered devices in the designated Wi-Fi zones in the faculty. Currently, Wi-Fi access is available in all the Lecture Halls, Library, Student Canteen, and other study areas.

2.2 Vision and Mission of the Faculty

Vision of the Faculty

To be excellent in nurturing the nation's experts for the next generation of technology

Mission of the Faculty

To produce accredited professional technologists to meet the needs of the world of technology

2.3 Broad Objective of the Faculty

One of the main problems in Sri Lanka is the shortage of professionals to face and handle technological advances that develop rapidly at the workplace. Many institutes, hospitals and industries import modern equipment, with advanced technology in order to improve the quality of services and products, enhance the efficiency of procedures and production lines. However, the country at large, faces difficulty because of not having a trained work force to properly use technological advances for the development of industries in the country. Proper management of equipment is a well-known problem even in universities and research institutes in the country, mainly due to lack of professionals to train technical officers. The degree programmes under this faculty are designed to produce quality Technologists out of the students expected to enter universities through the Technology Stream, to fulfill such needs of the country.

The Technologists produced through this faculty, in the areas of Engineering Technology, Biosystems Technology and ICT would certainly fulfill the need of the country to bring new technology to industries. Furthermore, they would have the basic knowledge in management to work as professional Technologists. The courses are structured to provide relevant knowledge on essential technical subjects so that the graduates would be employable in various fields.

CHAPTER 3

Academic Regulations and Procedures

3.1 General Registration

All applicants for the admission to bachelor's degree programs in the Faculty of Technology must satisfy the general university admission requirements for the faculties of Technology as laid down by the University Grants Commission.

Applicants with equivalent qualifications gained from foreign universities and transfer students referred by the University Grants Commission for admission to this faculty shall be admitted only with the consent of the Faculty Board. Students admitted to the faculty register as fulltime students after fulfilling the requirements for registration laid down by the University Grants Commission and the University. Each student is required to maintain his/her registration during the total period of study in the faculty.

3.2. Registration as a new student

A student admitted to the faculty is registered as a fulltime student. He/she is required to maintain his/her registration during the total period of study (four years) in the faculty.

After the registration, every student is issued a registration number, an identity card which contains his/her photograph, a faculty handbook, and a student record book. This identity card is a valid mandatory document of identification of the student and should be kept with the student when entering the faculty premises, attending classes in the faculty, hospital or during field visits, sitting for examinations and entering faculty hostels. It should be produced when it is requested by any authorized personnel in the university. The identity card will be essential to enter the university premises and to borrow books from the library. These should be kept safely until the degree is awarded. In case of loss of a student identity card/student record book, it should be immediately reported to the Assistant Registrar/FoT along with a copy of the police complaint.

3.3 Fees

3.3.1 Fees Levied for Registration for a Degree Programme

Following table provides the details of fees to be paid for different activities by each undergraduate on registration for a degree programme.

Degree Programme	Fees per Level	Amount (Rs.)
Undergraduate	Registration fee:	900.00
	B.Tec. Degree - Level I	450.00
	B.Tec. Degree - Level II	200.00
	B.Tec. Degree - Level III	200.00
	B.Tec. Degree - Level IV	200.00
	Medical fee*	50.00
	Technology deposit	100.00
Library deposit	100.00	
*Should be paid at the beginning of every Level		

Any repeat student who wants to follow a relevant Theory Course Unit for another occasion may follow it after making a payment of Rs.250.00 per course Unit, only if the Faculty Board approval is granted.

3.4 Examination Fees

No examination fee is levied from all undergraduates, who are sitting for any examination for the first time. Students, who sit for examinations more than once, will have to pay an examination fee as laid down by the university.

3.3 Orientation Programme

Foundation programme offers Course Units on English (Intensive Course), Mathematics, ICT Skills in Common Disciplines. This programme is provided as a preparation to the Bachelor of Technology Degree and is mandatory. However, the length of the orientation programme may depend on the availability of time after the enrollment of students

3.4. Course Structure and academic calendar of study in the faculty.

3.4.1 General Academic Calendar

The general academic calendar consists of levels (academic years) and semesters. Each level comprises of two semesters. The Degree Programme is of four levels (eight semesters). The faculty will notify commencement of the academic years and semesters, with prior approval from the Faculty Board. A typical academic year will be as shown in the following table.

Table 3.4.1 General academic calendar of the Faculty of Technology

First semester	Weeks	Second semester	Weeks
1st half	8	1st half	8
Mid semester recess	1	Mid semester recess	1
2nd half	7	2nd half	7
Study leave period	1	Study leave period	1
Examination period	3	Examination period	4
Vacation periods and Holidays			11
Total			52

3.4.2 Structure of the Degree Programme

The details of the course structure, the methods of evaluation, grading system, requirements to complete the degree and conditions to award classes are given in this section. As decided at the Technology Standing Committee, degree programme of four years is designed with minimum of 120 credits. In addition, non-GPA English course units are offered during the first five semesters. Standard credits system, 15 lecture hours or 30-45 practical hours is considered as one credit and industrial training period of one month is one credit.

Programme of Study

1. Duration of the Degree of Bachelor of Technology programme shall be 4 academic years. Six months shall be used for Industrial Training. Some non-GPA English course units shall be offered during the first five semesters.
2. The degree programme shall consist of Theory Course Units, Practical Course Units, ProjectDesign and Industrial Training.
3. Degree programme shall be classified into three areas as Engineering Technology, Information and Communication Technology and Biosystems Technology.
4. Each academic year will normally consist of two semesters.
5. A student, during the course of study should.
 - I. attend a specified course of lectures, and
 - II. perform specified work for practical/continuous assessments, and
 - III. undertake approved projects, industrial training, seminars and other related work as approved by the faculty.
6. The medium of instruction would be English.

Biosystems Technology	Biosystems Technology Complementary Subjects English	BST TCS ENG
Information and Communication Technology	Information Technology Mathematics and Statistics Complementary Subjects English	ICT TMS TCS ENG

3.5 Course Structure

3.5.1 Engineering Technology

The degree programme is designed with a minimum of 120 total credits of course units. The course units are structured as follows:

Engineering Science and Design = 76 Credits

Complementary Studies = 27 Credits

Mathematics, Basic Science and Computing = 24 Credits

Industrial Training = 06 Credits

The course units are designed to produce an Engineering Technologists with a broad knowledge in the area of Electromechanical Technology with the relevant foundation knowledge in Mathematics, Basic

Sciences and ICT. Course units under complementary studies provide the relevant non-technical subject knowledge to complement the technical subjects.

3.5.2 Information and Communication Technology

The course units are structured as follows:

Information Technology = 90 Credits
Complementary Studies = 18 Credits

Mathematics and Statistics = 06 Credits
Industrial Training = 05 Credits

3.5.3 Biosystems Technology

The course units are structured as follows:

Biosystems Technology =96 Credits
Complementary Studies =24 Credits

Industrial Training = 06 Credits

3.6 Credit Value of a Course Unit

Course units have credit values. A credit is a time based quantitative measure used to determine the weightage of a particular course unit as shown below.

Table 3.6 Different types of Course Units and Credit Values

Description		Credit Value
Theory Course Units: e.g.	15 contact hours	01
	30 hour Course Unit	02
	45 hour Course Unit	03
Practical Course Units:	30-45 hour Course Unit	01
	60-90 hour Course Unit	02
Projects:	30-45 hour Project	01
Combined Course Units: e.g. 30 theory hours and 30-45 practical hours 15 theory hours and 30-45 practical hours		3

3.7 Selection of Course Units

There are several options for the selection of course units. Available options will be announced at the commencement of the semester. The course unit pathways have been designed to ensure a significant degree of diversification within the degree programme. Compulsory course units should be followed by all students in accordance with the streams selected. Optional course units can be selected at the discretion of the student, according to the selection criteria prescribed by the Faculty/Department. English course units are not counted for Cumulative GPA (CGPA) (called as Non-GPA), however, they will be counted for Semester GPA (SGPA) and has to fulfill the requirement for satisfactory completion of each semester.

3.7.1 Engineering Technology Stream

The Fifth batch of students who opted to follow engineering technology stream subjects in schools have sat for the A/L examinations in 2020 and are expected to enter universities in 2021. This document is providing the details of the degree programme, Bachelor of Engineering Technology, designed for students to be entered in 2018 under A/L Technology stream. The degree programme is designed focusing on Electromechanical Technology, to produce professional Technologists to suit the need of the country with the relevant knowledge in Electrical, Electronic and Mechanical systems and applications. Initially, the student intake for this degree programme would be 150 students selected under standard procedure of UGC according to the Z-score.

3.7.2 Information and Communication Technology Stream

The Fifth batch of students who opted to follow information and communication technology stream subjects in schools have sat for the A/L examinations in 2020 and are expected to enter universities in 2021. University of Ruhuna, has taken a decision to introduce this BICT degree programme, which is targeting the students who have selected the subjects, Science for Technology, Engineering Technology, Biosystems Technology and ICT in A/L Technology stream. The main objective is to produce quality application developers with relevant subject knowledge on application development principles and ICT principles and with relevant complementary subject knowledge, who could build professional careers in the field of ICT.

3.7.3 Biosystems Technology Stream

The third batch of students who opted to follow Biosystems Technology stream in schools have sat for the A/L examinations in 2020 and are expected to enter universities in 2021. This document is providing the details of the degree programme, Bachelor of Biosystems Technology, designed for students to be entered in 2018 under A/L Technology stream. Aim of this degree programme is to produce professional technologists to suit the country with the relevant knowledge in Biosystems Technology and its applications. Initially, the student intake for this degree programme would be 50 students selected under standard procedure of UGC according to the Z-score.

3.7.4 Multidisciplinary Subjects

It should be emphasized that multidisciplinary subject knowledge has to be provided for undergraduates to produce employable graduates in the present job market. Therefore, it is proposed to establish the Department of Multidisciplinary Studies.

The undergraduate programme in the Faculty of Technology comprises of a large number of course units offered by individual departments. In addition to the course units under the subject areas, several other course units from different disciplines (for example English, Management, personnel development etc.) are also available. These course units are offered by the Department of Multidisciplinary Studies and the denotations of such course units are Complementary Subjects Course (Unit codes starting with TCS). These Multidisciplinary course units are offered for all three subject streams.

Theory course units consist of lectures, assignments and tutorials. Combined course units consist of both theory and practical components. In addition, students are also given the opportunity to conduct research projects in an area/problem of his/her interest under a particular course unit.

3.8 Identification of Course Units

An alphanumeric code is used to identify a unit. The code consists of four digits prefixed by a set of three letters denoting the subject/Course Unit as described by the example given below:

Table 3.8 Identification of Course Units

Eg. ENT1232		General Options
ENT	Engineering Technology	TMS: Mathe., Basic Sci. and Computing ENT: Engineering Technology, T=Theory, P=Practical, BST: Biosystems Technology TCS: Complementary Studies, ICT: Infor. and Com. Techn.

3.9 Online Documentation of the Management Information System (MIS) of Faculty of Technology (TEC), University of Ruhuna - (TECMIS)

The TECMIS is meant to assist management of the information system of Faculty of Technology. Its present version has been designed after a careful assessment of the requirements of the users of the system. The users are Students, Dean, Assistant Registrar, Heads of Departments, Lecturers, Academic Supportive Staff and Non-academic Staff.

Users of the TECMIS can perform various different tasks. Every user is assigned a user name and a password to log-in to the system. However, for security reasons all user accounts are created by the Dean of the Faculty of Technology. Students must change the given temporary password at the first time they log to the system.

All students must use TECMIS to register for course units and examinations. There are many facilities for students in TECMIS, such as, view own course units they registered, attendance of classes, eligibility for examinations, results/GPA and notices etc. Changes in registrations are allowed within the specified time limit at the beginning of the semester. All students must complete and update their personal information page.

3.10 Registration process

1. Start Registration : The relevant time periods will be announced by the Dean's Office for students to register/drop course units.
2. Close the registration : The system will be closed for students after the given time period and student will not be allowed to register through the TECMIS after the closing dates.
3. Change of registration : After the closing date of registration, students are allowed to modify course units registered through the Dean's office within a given period, generally two weeks from the beginning of the Semester.
4. Confirmation: Registration for course units will be confirmed by the Deans office and the confirmation of each course unit can be seen in the system. This confirmation indicates that the registration is successful. If any course unit is not confirmed, the students are advised to contact AR/Technology at the Deans Office.

3.11 Attendance of Classes

Students' attendance for course units they registered can be viewed. It contains daily attendance, number of medical submissions and current attendance percentage for the course units. A student must maintain an 80% attendance for classes in order to be eligible to sit for the examination of a course unit.

3.12 Registration for examinations

All students are advised to register for examinations before the deadline as the dates are announced by the Deans office. Students can register for examinations of registered course units only.

After the registration for examinations is completed the eligibility for each course unit, which depends on the percentage of attendance (80%), will be displayed in the system. It is the responsibility of the student to register for examinations and to maintain the required attendance.

3.13 Results of Examinations

The released results of course units will be posted on the system. The students can view the results of a given course unit or all results of past examinations after login to their accounts.

3.14 Notices

The notices relevant to students will be posted on TECMIS. It is the responsibility of students to see the notices and announcements .

- Web Address for the TECMIS: <http://paravi.ruh.ac.lk/tecmis/>

3.15. By-law of the University and Rules and Regulations for students in University of Ruhuna

University by-law will be distributed among the students at registration. All students should abide to the by-laws of the University of Ruhuna. Furthermore, students should follow and abide to the General Rules and Regulations set by the University of Ruhuna (ANNEX 1) and Guidelines for Prohibition of Ragging and other forms of Violence in Educational Institutions (ANNEX 2).

3.16. By-law of Degree Programmes

By-law of each degree programme consists of all the academic related information, regulation and activities. The by-laws of each degree programme are described in the chapters 3, 4, 5,6 and 7 and ANNEX III. All students should be aware and refer the by-law of the relevant degree programme during the academic period.

3.17 Examinations By-laws: Degree Programmes of Faculty of Technology

The details of the requirements to receive Bachelors degrees from the Faculty of Technology are given in the By-Law No. 91-2016 of 2016 given below.

03.17.1 By-laws

By-Laws made by the Council of the University of Ruhuna, on 16th Feb 2017 under Section 135 of the Universities Act No. 16 of 1978 and its subsequent amendments.

BY-LAWS

1. These By-Laws may be cited as the Bachelor of Technology Degree Programmes By-Law No: 91-2016 of 2016.
2. Subject to these By-Laws, a student shall be awarded **Bachelor of Engineering Technology, Bachelor of Information and Communication Technology and Bachelor of Biosystems Technology Degrees.**
3. Subject to these By-Laws, a student shall be awarded a Degree if he/she has :
 - 3.1 been admitted to the University as a student under Section 135 of the amended section of the Universities Act No. 16 of 1978 or in the case of a student with foreign qualifications referred for admission by the University Grants Commission admitted with the recommendation of the Faculty Board and the approval of the Senate, and
 - 3.2 been a duly registered student of the University, for the period of study as set out in section 4.0, and
 - 3.3 completed the courses of study as prescribed by these By-Laws and Regulations and Rules made there under to the satisfaction of the Senate, and
 - 3.4 passed examinations as prescribed by these By-Laws and Regulations and Rules made there under, and
 - 3.5 successfully completed all projects, seminars, industrial training and other work relevant to the course of study, as may be prescribed in the Rules and Regulations made there under, and
 - 3.6 paid such fees as prescribed for his/her case by these By-Laws and the Regulations and Rules of the University, and
 - 3.7 fulfilled all the above requirements within six academic years from the date of entry to the University provided that it shall be within the power of the Senate to declare for some specified reason that a student is eligible for the award of the Degree at a subsequent occasion.

4. Registration for the Degree Programme

- 4.1 A candidate admitted to the Degree Programme shall not be permitted concurrent registration for any other fulltime course of study.
- 4.2 Registration for each academic year of the programme shall be determined in accordance with the Rules and Regulations as laid down by the Faculty.
- 4.3 A candidate selected for admission shall register to follow course units corresponding to a minimum of 120 credits of the Degree Programme.
- 4.4 Prescribed fees for registration and examinations wherever relevant shall be paid as determined by the Council of the University (hereinafter referred to as the Council).

5. Programme of Study

- 5.1 Duration of the Degree programme shall be for a period of not less than four academic years including the period of Industrial Training/Research projects.
- 5.2 Each academic year will consist of two semesters as prescribed in the Rules and Regulations.
- 5.3 The course shall consist of Theory Course Units, Practical Course Units and Industrial Project or Industrial Training component.
- 5.4 A student, during the course of study, shall
 - 5.4.1 attend a specified course of lectures, and
 - 5.4.2 perform specified work for practical/continuous assessments, and
 - 5.4.3 undertake approved projects, industrial training, seminars and other related work as approved by the Faculty.
- 5.5 The course shall consist of following components of Course Units for each degree programme.
 - 5.5.1 Engineering Technology Degree
 - 5.5.1.1 Engineering Science and Design (ENT)
 - 5.5.1.2 Mathematics, Basic Science & Computing (TMS)
 - 5.5.1.3 Complementary Studies (TCS) or
 - 5.5.2 Information and Communication Technology Degree
 - 5.5.2.1 Information Technology (ICT)
 - 5.5.2.2 Mathematics & Statistics (TMS)
 - 5.5.2.3 Complementary Studies (TCS) or
 - 5.5.3 Biosystems Technology Degree
 - 5.5.3.1 Biosystems Technology (BST)
 - 5.5.3.2 Complementary Studies (TCS) and
 - 5.5.4 English (ENG) and
 - 5.5.5 Industrial Training and
 - 5.5.6 Any Foundation Course Units
- 5.6 A student shall complete a six-month period of Industrial Training, at Institutions/ Organizations recommended by the Industrial Training Centre of the Faculty and approved by the Faculty and shall earn a total of six (06) Credits per six (06) months of industrial training/project.
- 5.7 A student shall be allowed a maximum of six academic years from the date of registration to complete a four-year degree, excluding periods of absence caused by medical or other valid reasons acceptable to the Faculty and the Senate.
- 5.8 Under Medical Grounds the Senate may grant permission to extend the duration of study beyond the maximum allowed duration by an amount not exceeding the approved leave on medical grounds.
- 5.9 Under exceptional circumstances other than Medical Grounds, the Senate may grant permission to extend the maximum allowed duration of study by not more than two additional years on the recommendation of the Faculty.

5.10 Subject to these By-Laws, the Course Units and their syllabi, the mode of evaluation of each Course Unit, examination criteria and schemes of award of Honours shall be prescribed by Rules and Regulations made by the Senate on the recommendations of the Faculty Board.

6. Evaluation and Grading

6.1 Evaluation

6.1.1 The performance of each student in each course unit shall be evaluated by continuous assessment (CA) and/or end-of-semester assessment (ESA) as announced at the commencement of the relevant semester.

6.1.2 End-of-Semester Assessment (ESA)

The evaluation at the end of the semester shall be based on a written examination, practical examinations or any other component as determined by the relevant Department.

6.1.3 Continuous Assessments (CA)

6.1.3.1 The continuous assessment of a student's performance shall be based on specified combination of assignments including laboratory work, in-class tests, tutorials, quizzes, presentations, reports, mid-semester evaluations, oral examinations and participation in the course activities.

6.1.3.2 The eligibility of the candidates to sit for ESA is based on the satisfactory attendance (Clause 6.2) for the course unit and by fulfilling the assessment criteria stipulated in the course unit outline sheet for CA.

6.1.3.3 A student who does not fulfil the CA component outlined in section 6.1.3.2 will fail the course unit and receive a grade F.

6.2 Attendance

6.2.1 To be eligible to sit for the examination(s) of a relevant course unit, the minimum requirement of attendance for theory/practical classes, field work and project(s) shall be 80%. Those who do not fulfil this requirement will be given a grade E* for that particular Course Unit. In the case of Industrial Training, attendance is required as prescribed by the Faculty.

6.2.2 In the event if a student fails to maintain at least 40% attendance for each practical course unit of first academic year of the degree programme, he/she will not be allowed to sit for the examination of that particular course unit even as a repeat student and hence he/she has to leave the university.

6.3 Academic Work Load and Class Standing

6.3.1 Academic Work Load

The normal academic work load of a full-time student in a semester shall be 18 credits. With the approval of the Academic Adviser, a student is permitted to take a maximum of 6 credits above or below the normal semester academic work load. A student may, with valid reasons, undertake an academic work load beyond the above limits, after obtaining the approval of the Faculty Board, given on the recommendation of the student's Academic Adviser.

6.3.2 Grade Point Average (GPA)

The performance of a student is determined by the Grade Point Average (GPA). The calculation of the GPA shall be based on the summation of Grade Point Values earned for all course units considered for calculation of the GPA, weighted according to number of credits as per the following formula, where C_i is the number of credits for the i^{th} course unit and GPV_i is the Grade Point Value earned for that course unit and n is the number of GPA course units.

$$GPA = \frac{\sum_{i=1}^n C_i GPV_i}{\sum_{i=1}^n C_i}$$

6.3.3 Semester Grade Point Average (SGPA)

The performance of a student in a given semester is calculated using the above formula (Clause 6.3.2) for all course units (n) registered including non-GPA course units (except for those awarded with academic concessions) in that semester.

6.3.4 Successful Completion of a Semester

A student is considered to have completed a semester successfully only if he/she has achieved a SGPA of 2.00 or above, and has, in that semester no E, E* or F grades and no more than, three grades at the levels of C-, D+ or D.

6.3.5 Cumulative Grade Point Average (CGPA)

The Cumulative Grade Point Average (CGPA), which is calculated using the formula given in section 6.3.2, describes a student's current standing in terms of grade points earned for all GPA course units (n) registered up to a given point of time (except for those awarded with academic concession).

6.3.6 Class Standing

Class standing of a student is determined at the end of Level (II) considering results of level (I) and level (II) examinations based on the Cumulative Grade Point Average (CGPA). All course units including course units with grade C-, D+, D, E, E* and F shall be considered to calculate CGPA. The following conditions shall be satisfied to fulfill the class standing to register for level (III).

6.3.6.1 CGPA shall not be less than 2.00

6.3.6.2 Successful Completion of each Semester as defined in section 6.3.4.

6.3.6.3 No MC, AC or WH grades are received.

6.3.7 Temporary Registration

If the three conditions under section 6.3.6 are not satisfied a student shall request for a temporary registration for Level III and such request shall be considered at a Faculty Board. If the above conditions are fulfilled at the end of level (III) under temporary registration, the students shall request for a proper registration for Level (III). It is the students responsibility to fulfill the above conditions within the period of temporary registration. Students shall not be qualified to participate in the Industrial Training under the temporary registration.

6.4 Grading

6.4.1 Grades will be allocated based on the performance of a student. The performance of a student shall be evaluated for each course unit as prescribed by the Senate on the recommendation of the Faculty Board subjected to eligibility requirements stipulated in the Rules and Regulations.

6.4.2 The Great Point Value (GPV) earned for a Course Unit, which is counted for Grade Point Average (GPA) shall be expressed by a letter grade on a Four Point Grading System as described below.

Grades	Grade Point Value (GPV)	Notes
A+	4.0	1
A	4.0	
A-	3.7	
B+	3.3	
B	3.0	
B-	2.7	
C+	2.3	
C	2.0	2
C-	1.7	3
D+	1.3	3
D	1.0	3
E,E*	0	3,4,6
F	0	3,5
AC	-	6
MC	-	7
WH	-	8

Note:

- (1) Grade A+ signifies superior performance.
- (2) Grade C or above is the normal requirement to pass a Course Unit. The maximum grade point accruing to a student repeating a course shall correspond to a grade C. (3) Any grade below C is not accepted as a pass mark.
- (4) A student failing ESA receives a grade E (or E*), and is required to repeat only the ESA component.
- (5) A student failing in Continuous Assessment (CA) receives an F grade, and must repeat both components CA and ESA. The Continuous Assessment marks shall be carried forward up to a maximum of two consecutive academic years (except the proper attempt) and shall only be replaced with an improvement by reattempting. Improved Continuous Assessment marks shall be eligible for the improvement of overall grade to the highest possible grade of C.
- (6) A student who has missed an end-semester examination because of any reason other than medical may appeal with supporting documents to the Dean for a concession within one week from the date of the relevant examination. In case of failing to produce an acceptable reason, a grade of E* will be given. If the given reason is accepted by the Senate on the recommendation of the Faculty Board, a Letter AC will be given and such a student shall be allowed to sit for the next immediate examination and considered as the first attempt.
- (7) Grade MC signifies the Concession granted on Medical reasons.
- (8) Grade WH signifies the Withheld of Results.
 - 6.4.3 A student who registered for a course unit shall be counted as having completed the proper attempt in the relevant examination irrespective of whether he/she sit for the examination or not at the end of the semester, except for AC or MC.
 - 6.4.4 Industrial Training is a compulsory Course Unit student shall attend as prescribed in the Industrial Training Manual and earn a minimum of Pass-S grade to obtain a Bachelor of Technology Degree. A grade Pass-H indicating a high achievement or a grade Pass-M indicating a mediocre achievement or a grade Pass-S indicating a satisfactory achievement is required for the completion of the Industrial Training course unit. If the industrial training is

not completed successfully grade F will be given. Graduation shall be withheld if Industrial Training is not successfully completed by a student.

6.4.5 The mode of assessment and the distribution of weight between continuous assessment and end-semester examination for each course unit shall be determined by the Senate on the recommendation of the Faculty Board.

6.4.6 A student who has missed an end-semester examination because of illness shall appeal with supporting documents to the Dean for a concession within one week from the date of the examination. Letter MC given in such occasion shall require the approval of the Faculty Board. Documents supporting his/her claim for a medical concession should be in accordance with the Internal Circular issued by the University of Ruhuna for submitting Medical Certificates.

7. Requirement for the Graduation

A student shall be deemed to have passed the Bachelor of Technology Degree Examination, if he/she has:

7.1 Completed a minimum of 120 GPA credits including the credits from industrial training course unit.

7.2 Completed any other mandatory requirements prescribed by the Faculty.

7.3 Successfully completed all semesters as stipulated under section 6.3.4

7.4 Obtained a Cumulative Grade Point Average (CGPA) of 2.00 or more.

7.5 Successfully completed mandatory training course units, incentives, foundation course units as prescribed by the Faculty Board with the approval of the Senate.

8. Award of Classes : A student who has satisfied conditions given in Section 07 is eligible for an award of a Class if he/she completes the requirements indicated below within four academic years.

GPA = 3.70 First Class

GPA 3.30 - 3.69 Second Class (Upper Division)

GPA 3.00 - 3.29 Second Class (Lower Division)

A student who has not satisfied the eligibility requirements for a Class shall be deemed to be eligible for the award of the degree of Bachelor of Technology on satisfying the minimum graduation requirements.

9. The effective date of the degree shall be the day after the last date of the semester examinations or the viva-voce examination of industrial training, which satisfies the conditions stipulated under section 7.

10. Special considerations

Notwithstanding the above provision, each individual case may be dealt with on the basis of its own merits by the Faculty Board, subjected to approval by the Senate.

11. Revision of By-Law/ Rules and Regulations

11.1 Rules and Regulations under this By-Law may be revised/amended by the Senate as and when necessary.

11.2 All other common Rules and Regulations applicable to Universities in Sri Lanka and to the University of Ruhuna in particular are also applicable to students registered for this degree programme.

11.3 This By-Law may be revised/amended as and when necessary.

12. These By-Laws shall be operative from the academic year 2016/2017 inclusively.

13. Interpretations

13.1 In this By-Law unless the context otherwise requires:

“University” means “the University of Ruhuna, Sri Lanka ” as established by the Gazette Notification No. 281/07 dated 24-01-1984.

“Council” means “the Council of the University of Ruhuna”, constituted by the Universities Act No.16 of 1978 and amendments thereof.

“Senate” means “the Senate of the University of Ruhuna”, constituted by the Universities Act No. 16 of 1978 and amendments thereof.

“Faculty of Technology” or “Faculty” means “the Faculty of Technology, University of Ruhuna”.

“Faculty Board” means “the Faculty Board of the Faculty of Technology, University of Ruhuna”.

“Dean” means “the Dean of the Faculty of Technology, University of Ruhuna”.

“Head of the Department” means the “Head of the Relevant Department of Faculty of Technology where the student is enrolled”.

13.2 Any question regarding the interpretation of this By-Law shall be referred to the Council whose decision thereon shall be final and conclusive.

14. Verification of Marks

Students are given the opportunity for the verification of marks after releasing results of course units by paying a fee at each semester. Further details of the process of the verification of marks are available at the faculty office. The final recommendation that will be made by the committee appointed for the verification of marks will be submitted to the approval of the Senate of the University of Ruhuna.

CHAPTER 4

DEPARTMENT OF ENGINEERING TECHNOLOGY

4.0 Introduction

Engineering Technology degrees are well-recognised around the world, which are designed to produce Technologists who would fit in between Engineers and Technical Officers professionally. Graduates with Technology degrees are internationally accredited according to Sydney Accord, while Engineers are accredited according to Washington Accord and Technicians are accredited according to Dublin Accord. Furthermore, Institute of Engineers, Sri Lanka (IESL) has produced an Accreditation Manual for Engineering Technology Programs outlining the criteria and procedures for accreditation, in parallel with the Sydney Accord. This degree program is designed to produce internationally recognized technologists in the area of Electromechanical Engineering Technology. The Department of Engineering Technology conducts courses in all major fields on Electromechanical Technology, to produce professional Technologists to suit the need of the country with the relevant knowledge in Electrical, Electronic and Mechanical systems and applications. In addition to this, research facilities are planning to offer to those students seeking postgraduate qualifications such as M. Sc., M.Phil. and PhD. Degrees in Engineering Technology and related fields.

4.3 Objectives of the Degree Programme – B. Engineering Technology

The curriculum of this degree programme focusses on electromechanical instrumentations and process control, which incorporates elements of electronic, electrical and mechanical engineering technology. The electrical component of the curricular includes course works on basic knowledge in electricity and magnetism, current electricity, analog circuits, digital circuits, circuit analysis and faults diagnosis, electrical power systems, operation and maintenance of computer hardware and computer networking. The electronic component includes analogue electronic systems, digital electronic systems, programmable digital electronics, power electronics and applications, electronic system design, etc. The mechanical component of the curricular includes mechanical and engineering properties of matter, computer aided drafting, basic motor mechanics, hydraulic pumps, robotics, mechatronics and several workshop training course units. Integration of electrical and mechanical components takes place through several course units on applications. Relevant knowledge in basic Science and Mathematics, ICT knowledge and basic Management knowledge would be provided through relevant course units.

Main Objectives:

1. To offer a quality degree programme for students who enter the university through Advanced Level Engineering Technology stream.
2. To produce graduates qualified to be professional Electromechanical Engineering Technologists locally as well as internationally.
3. To provide expertise to design, develop and manage electrical, electronic and mechanical systems in modern working environment.
4. To provide qualified manpower to enhance the productivity, quality, efficiency and sustainability of local industries through the use of relevant technologically developed Electrical, Electronic and Mechanical systems.
5. To produce Technologists with competent broad knowledge on electromechanical engineering technology in vast areas of applications.
6. To produce graduates qualified to teach in Engineering Technology streams in schools and in Technical Colleges and knowledge transfer to society.

4.4 Course Unit Combinations - Engineering Technology

The detailed course structure is given below. The names of the course units and number of credits for respective course units are given under three main sections of the degree program, namely, Mathematics, Basic Science and Computing, Engineering Science and Design, and Complementary Studies. The details of objectives, expected output, course content, assessment method and textbooks for each course units are available in website.

4.5 Programme Outcomes for Engineering Technologists

1. **Engineering Technology Knowledge:** Apply knowledge of Mathematics, Science and Electromechanical Engineering Technology to defined and applied procedures, processes, systems or methodologies.
2. **Problem Analysis:** Identify, formulate, and analyse broadly defined Technology problems reaching substantiated conclusions using Mathematics, Basic Sciences, ICT and Electromechanical Technology.
3. **Design development of solutions:** Design solutions for broadly defined technical problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal and environmental considerations.
4. **Investigation:** Conduct investigations of broadly defined problems using technical knowledge and experience to provide valid outcome.

5. **Modern Tool Usage:** Create, select and apply appropriate techniques, resources, and modern Technology and IT tools, including prediction and modelling, to broadly defined Electromechanical Technology activities, with an understanding of the limitations.
6. **The Technologist and Society:** Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues, and the consequent responsibilities relevant to professional Technological practices.
7. **Environment and Sustainability:** Understand the impact of professional Technological solutions in societal and environmental contexts and demonstrate knowledge of and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of Technological practice.
9. **Individual and Teamwork:** Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
10. **Communication:** Communicate effectively on broadly defined Technological activities with the professional community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project Management and Finance:** Demonstrate knowledge and understanding of Technical and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Lifelong learning:** Recognize the need for and have the preparation and ability to engage in independent and lifelong learning in the context of technological changes.

4.6 Department Resources

The Department has the following infrastructure facilities: four elementary laboratories; Engineering Technology Laboratory, Electronic and simulation Laboratory, Robotics and Automation Laboratory and Materials Laboratory that can cater up to 100, 50, 120, 30 undergraduate students respectively. Further two lecture theaters that can cater up to 180 students, two well-equipped technology workshops and one well equipped technology drawing unit.

Laboratories and workshops are equipped with the following facilities with other default facilities.

4.5.1 Engineering Technology Laboratory

Desktop computers, Analog oscilloscopes, "PASCO" training sets , Digital Multimeters, Function Generators, Frequency Counters, Digital Storage Oscilloscopes, Spectrum Analyzers and Logic Analyzers. Power supplies, Lux meter, Earth resistance tester, Insulation Tester, Clamp meter, etc.

4.5.2 Electronic and Simulation Laboratory

Digital storage oscilloscopes, Logic analyzers, Digital electronic training module sets (NI training kit), Desktop computers, Function generators, Spectrum analyzers , Soldering stations, Softwares (LabVIEW, Multisim), LCR meters, Digital Thermometers, etc.

4.5.3 Robotics and Automation Laboratory

Analog and digital motor teaching sets, Pneumatics Trainer ("FESTO") Hydraulics trainer, Industrial control trainer and PLC Teaching set, Introduction to PLCs trainer teaching set, Transducers, Instrumentation and control teaching set etc.

4.5.4 Materials Laboratory

Digital density gravity meter, Digital pressure gauge (prisma), Non Destructive Testing (NDT) complete set, Programmable high temperature muffle furnace, Strain gauge experiment setup, Thermal conductivity measurement apparatus, Tensile testing machine (UTM), 3D printer, Metallographic microscope, Metal polisher etc.

4.5.5 Engineering Workshops

CNC machines(Milling/Lathe), Welding plants(Mig, Tig, Gas Arc)Milling machines, Lathe machines, Surface grinders, Plate bending machines, Surface grinders, Automobile engine training sets(Diesel/Petrol), Refrigeration trainers set , Plate shearing machine, Band saw machines, Manual three roller bender, Press brake machine, Power saw machine, Laser cutter etc..

CHAPTER 5

DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

5.0 Introduction

One of the main problems in Sri Lanka is the lack of sufficient IT professionals to cope up with the rapidly developing technological advances at the work place. Many institutes, hospitals and industries import equipment with advanced technology in order to improve the quality of their products and enhance the efficiency of their procedures and production lines. Most of these high tech equipment are computer controlled and some need IT experts to operate and modify relevant software. Furthermore, it has been noticed that some industries could have improved their efficiency if technological advances in IT had been deployed. The proposed BICT degree programme has been focused on Application Development BICT, which is one of the degree programme proposed by Computer Society of Sri Lanka under new ICT Degree Programme Accreditation Framework. The main objective is to produce quality application developers with relevant subject knowledge on application development principles and ICT principles and with relevant complementary subject knowledge, who could build professional careers in the field of ICT.

5.3 Objectives of The Information and Communication Technology Degree Programme

The proposed BICT degree programme has been focused on Application Development, which is one of the degree programmes proposed by Computer Society of Sri Lanka under new ICT Degree Programme Accreditation Framework. The main objective is to produce quality application developers with relevant subject knowledge on application development principles & ICT principles and relevant complementary subject knowledge, who could build professional carriers in the field of ICT.

The main objectives of the degree program can be listed as follows.

Main Objectives:

1. Prepare graduates for positions in software development careers by providing industry-relevant applied education in application development.
2. Produce graduates with a broad knowledge on current industry trends including Web, cloud and mobile applications, as well as industry practices.
3. Prepare graduates to meet current and future industry needs and emerging software trends.
4. Produce high quality software developers with personal skills for a successful career in research and development, industry or other commercial application development related enterprises.

The curriculum of this degree programme is designed to produce graduates with the subject knowledge on application development and with the knowledge on complementary subjects on Ethics, Economics, Accounting and Management relevant to businesses.

5.5 Programme outcomes of the Information and Communication Technology Degree

1. Theoretical Knowledge: Understand knowledge on relevant basic Mathematics, Statistics, Social Business, ICT and application development principles, practices and languages, and apply such knowledge to collect and analyze details related to ICT-based application development environments.
2. Practical Knowledge and Application: Design and develop ICT-based application-level solutions to business and social problems meeting the specified needs of the domain under consideration and apply knowledge of ICT and application development principles, practices and languages, to defined and applied procedures, processes, systems or methodologies of software development.
3. Modern Tool Usage: Create, select and apply appropriate techniques, resources, and modern Technology and IT tools, to application development activities, with an understanding of the limitations.
4. The Technologist and Society: Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional software development practices.
5. Environment and Sustainability: Understand the impact of professional application-level solutions in societal and environmental contexts and demonstrate knowledge of and need of such systems for sustainable development.

6. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of software development practices.
7. Individual and Teamwork: Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
8. Communication: Communicate effectively with different stakeholders in application development environments, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
9. Project Management and Finance: Demonstrate knowledge and understanding of Technical and management principles related to managing software development projects and apply these to ones own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
10. Lifelong learning: Recognize the need for and have the preparation and ability to engage in independent and lifelong learning in the context of technological changes.

5.6. Department Resources

Department have four labs and two lecture halls. Number of students that can be accommodated in each resource is as follows.

Name of Lab/Lecture Hall	Number of Students
ICT Lecture Hall	60 students
ICT Lab11	86 students
ICT Lab 12	70 students
ICT New Lab	47 students
ICT workshop Lab	72 students

CHAPTER 6

DEPARTMENT OF BIOSYSTEMS TECHNOLOGY

6.0 Introduction

The government through the Ministry of Education has introduced the Technology Stream to the school system in Sri Lanka to provide opportunities for students to learn more technology-oriented subjects with the expectation of producing a workforce to suit the technological advances in the country. One of the main objectives was to provide facilities in schools to attract students to follow technology-oriented subjects instead of arts stream subjects, as many students do not have facilities to follow science-based subjects in schools. This degree programme is designed to fulfil the above need of the country on the request of the Ministry of Higher Education and UGC. One of the main problems in Sri Lanka is the lack of professionals to cope up with the rapidly developing technological advances at workplaces. Many institutes, hospitals and industries import equipment with advanced technology in order to improve the quality of their products and enhance the efficiency of their procedures and production lines. Furthermore, it has been noticed that some industries could have improved their productivity if technological advances had been implemented. Management of equipment is a well-known problem even in Universities and Research Institutes in the country, mainly due to the lack of professionals, even to train Technical Officers.

This degree programme is designed to address the above issues in the country by producing Technologists with the knowledge in the area of Biosystems Technology. In particular, Biosystems in Agricultural, Biomedical, Bioprocessing and Environmental fields will be focused. In addition, graduates would have sufficient knowledge and skills in ICT for day-to-day work. Furthermore, they would have the basic knowledge in management to work as a professional Technologist.

The first batch of the students who were selected to follow the Bachelors of Biosystems Technology Degree programme at Faculty of Technology, University of Ruhuna was admitted in 2018 followed by 2nd batch in 2019 and it is expected to have the third batch in 2021. Initially, approved intake was 50 students, and it has been increased up to 100 by now.

Department of Biosystems Technology is satisfactorily resourceful with physical, human and other resources ensuring a peaceful learning environment for students.

Many course units are developed with practical components, in which the students' performance is evaluated continuously. Separate time slots are allocated in the timetable for help desks, so that students could meet the relevant staff and solve their problems individually.

6.4 Biosystems Technology Degree Program

The curriculum of this degree programme focuses on producing Technologists with the knowledge and technical expertise on Biosystems in Agricultural, Biomedical, Bioprocessing and Environmental fields. Relevant knowledge on Basic Science and Statistics, soft skills, ICT, entrepreneurship and basic management would be provided through the relevant course units. As per the approval of the University Grant Commission Sri Lanka (UGC), the National Biotechnology Industry Association, Sri Lanka (NBIA) is

responsible for the accreditation of Biosystems Technology programmes in Sri Lanka and in providing consultative feedback on the development of Biosystems Technology education programmes comparable to global practice. The National Biotechnology Industry Association (NBIA), Sri Lanka evaluates Biosystems Technology degree programme and accords accreditation in accordance with established criteria and procedures, through its Accreditation Board.

The main objectives of the degree program can be listed as follows.

Main Objectives:

1. To offer a quality degree programme for students who enter the university through Advanced Level Biosystems Technology stream.
2. To produce graduates qualified to be professional Biosystems Technologists locally as well as internationally.
3. To provide expertise to design, develop and manage Biosystems in modern working environment.
4. To provide qualified manpower to enhance the productivity, quality, efficiency and sustainability of local industries through the use of relevant technologically developed Biosystems.
5. To produce Technologists with broad knowledge on Biosystems.
6. To produce graduates qualified to teach in the Biosystems Technology streams in schools and in Technical Colleges and to transfer the knowledge in technology to society.

6.5 Course unit combination - BST Stream

The detailed course structure is given below. The names of the course units and number of credits for respective course units are given under two main sections of the degree programme, namely, module name and complementary studies. The details of objectives, expected output, course content, assessment method and text books for each course unit is available in website.

6.6 Program outcomes of The Biosystems Technology Degree

1. **Biosystems Technology Knowledge:** Apply knowledge of Biosystems, Bioprocesses and Applied Biosystems Technology to defined and applied procedures, processes, systems or methodologies.
2. **Problem Analysis:** Identify, formulate and analyze broadly defined technology problems reaching substantiated conclusions using Basic Sciences, biometrics, ICT and Biosystems Technology.
3. **Design development of solutions:** Design solutions for broadly defined Technical problems and design systems, components or processes that meet specified needs with appropriate consideration for agricultural, public health and safety, cultural, societal, and environmental considerations.
4. **Investigation:** Conduct investigations of broadly defined problems using technical knowledge and experience to provide valid outcome. Exploration of new and low-cost raw materials.
5. **Modern Tool Usage:** Create, select and apply appropriate techniques, resources, and modern Technology and IT tools, including prediction and modelling, to broadly defined Biosystems Technology activities, with an understanding of limitations.
6. **The Technologist and Society:** Apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues, and the consequent responsibilities relevant to professional Technological practices.
7. **Environment and Sustainability:** Understand the impact of professional Technological solutions in societal and environmental contexts and demonstrate knowledge and need for the sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of Technological practice.
9. **Individual and Teamwork:** Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.
10. **Communication:** Communicate effectively on broadly defined technological activities with the professional community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project Management and Finance:** Demonstrate knowledge and understanding of technical and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Lifelong learning:** Recognize the need for and have the preparation and ability to engage in independent and lifelong learning in the context of technological changes.

CHAPTER 07

DEPARTMENT OF MULTIDISCIPLINARY STUDIES

7.0 Introduction

Graduates with Technology degrees are expected to be knowledgeable on complementary subjects in addition to the subject matter of the relevant area. For example, according to the accreditation guidelines of Sydney Accords as well as IESL, Engineering Technology graduates are expected to complete about 18 credits of complementary subjects relevant to producing a professional Technologist. This is mainly due to the fact that having only the subject knowledge cannot produce a quality professional Technologist to perform well at the workplace. It is equally important to have relevant knowledge in subjects like Fundamentals of Management, Human Resource Management, Communication Skills, and Ethics at Workplace, Creativity, Invention and Innovation Skills, Entrepreneurship etc. to be successful at work. The Department of Multidisciplinary studies is established in the Faculty of Technology to offer Course Units on Complementary Subjects to fulfill the expected graduate outcome and the graduate profile.

7.5 English

English Language is one of the main subjects coordinated by the Department of Multidisciplinary Studies. Courses related to English language are conducted by the English lecturers attached to the department. The English program offered by the department is aimed at developing writing skills and spoken skills in relation to language in common usage and scientific communication.

7.5.1 Courses offered during academic years

The Department of Multidisciplinary Studies offers English as Non-credit complementary course units for BET, BST and BICT students during the Level I to IV of the Degree Programme. Course content will be provided at the beginning of each semester.

Table 7.5.1 shows the semester wise time allocation.

7.5.2 Requirement for the completion of English Course Units

The credit values of these course units are given in table 7.2. Their grades and credit values shall be considered for the calculation of Semester GPA (SGPA), which has to satisfy the clause 6.3.4 of the By-Laws (See Sec. 10 of the handbook) for the successful completion of a Semester. These credits are counted for the total credits earned but not counted for the minimum requirement of 120 credits and for the Cumulative GPA (CGPA). CGPA (Clause 6.3.5 of the By-Laws) is used for Requirement of the Graduation (Clause 7 of By-Laws) and for Award of Classes (Clause 8 of By-Laws)

Clause 6.3.4 of the By-Laws is given below:

6.3.4 Successful Completion of a Semester: A student is considered to have completed a semester successfully only if he/she has achieved a SGPA of 2.00 or above, and has, in that semester no E, E* or F grades and no more than, three grades at the levels of C- , D+ or D.

CHAPTER 8

MEDALS AND AWARDS FOR STUDENTS

8.1. Annual student awards

Vice-Chancellor's and Dean's awards shall be awarded annually to the students with the best overall performance in each faculty under the approved marking scheme. These awards are funded by the University and administered by the office of the Deputy Vice-Chancellor with the collaboration of Faculties and assistance of the Examinations and the Student Affairs branches.

8.2. Dean's awards and Dean's list for overall performance

Best five students in each batch from each faculty shall be selected under the approved marking scheme. Dean's awards shall be awarded to the best student in each batch under following categories at an award ceremony held at the faculty annually. A certificate of achievement (and a cash prize of Rs.10,000.00) will be awarded.

- Best 1st year student
- Best 2nd year student
- Best 3rd year student
- Best 4th year student (for special students of Faculties of Science and Humanities & Social Sciences, and students from Faculties of Agriculture, Engineering, FMST, Management & Finance, Allied Health Science and Technology)

Next four students in each batch who top the list under the approved marking scheme shall be included in the Dean's list and announced at the relevant Faculty Board. A certificate of achievement will be awarded to each student at an awards ceremony held at the faculty.

8.3. The Vice Chancellor's award and Vice Chancellor's list for overall performance

Best overall student who completed the degree from each faculty shall be selected under the approved marking scheme. Next two best students from each faculty shall be included in the Vice Chancellor's list.

A Gold Medal and a Certificate of Achievement shall be awarded. Students of the graduating batch will be eligible for the Vice Chancellor's Award. The Gold Medal and the Certificate of Achievement will be awarded at the General Convocation.

Vice Chancellor's List for Overall Performance of Next two students who top the list under the approved marking scheme from each faculty shall be included in the Vice Chancellor's list and announced at relevant Faculty Board. A certificate of achievement will be awarded at an awards ceremony held at the faculty.

8.3.1. Application procedure

Students can apply for the awards using an application form issued by the University. Application forms shall be available at Dean's office and can be downloaded from university website. Students shall submit certified copies of all the documentary evidence with the application. Students shall submit their applications through their Mentors/Academic Advisors who shall certify the contents of the applications. Students shall be prepared for and participate in an interview if the selection panel requests.

8.3.2. Eligibility requirements

8.3.2.1. Academic requirements

The students who have obtained an average GPA required for a 2nd Class Upper Division or above in the first attempt of the relevant examination of the courses of study in each academic year will be eligible for an award.

8.3.2.2. Other requirements

i. Any student who has been punished by the University and/or warned (in writing) by the Vice Chancellor or Deputy Vice Chancellor as found guilty for any misconduct shall not be eligible for an award.

ii. The overall score achieved by the applicant shall be 70 marks or above for the Vice Chancellor's Award/List and 65 marks or above for the Dean's Award/List.

8.3.3. Selection criteria

8.3.3.1. Academic achievements (maximum 60 marks)

For non-medical students

Case 1: If the applicant has the highest GPA above the required GPA for 1st class or the required GPA for the 1st class which is higher shall be given 60 marks and other student shall be given marks which are scaled down according to their GPA.

Case 2: If there is no applicant having highest GPA above the required GPA for 1st class or the required GPA for the 1st class, 60 marks shall be given for the required GPA for the 1st class and the other eligible students shall be given marks which are scaled down according to their GPA.

The average of the GPA obtained at each examination of relevant academic year shall be considered separately for the Dean's Award. The overall GPA obtained for all examinations shall be considered for the Vice Chancellor's Award.

8.3.3.2. Sports achievements

Maximum twenty marks shall be allocated for sports achievements as follows:

Description	Marks
World University Games/National Games	
First Place	20
Second Place	15
Third Place	10
Participation for an event (maximum up to 10 marks)	5
International Sports event representing the University	
First Place	10
Second Place	8
Third Place	6
Participation for an event	3
Inter University Events	
First Place	6
Second Place	5
Third Place	4

Participation for an event (Maximum up to 04 Marks)	2
Inter Faculty Events	
First Place	1.5
Second Place	1
Third Place	0.5
University Colors/ Best Athlete/ Player	3
Post of President, Vice President, Secretary,	1/position/year

8.3.3.3. Other achievements

Maximum twenty marks shall be allocated for extra-curricular activities other than sports.

Description		Marks
Post of President, Vice President, Secretary, Junior Treasure and Editor of Student Unions/Societies/Associations		1 position for year
Participation at the "Kavitha" Talent Show or Equivalent event Participation for an Event	First Place	1
	Second Place	8
	Third Place	6
	Final Round	4
University approved event/competition/Orator/Singing/Dancing/Poetry Writing/Script Writing etc.) (Solo or Group)		
University Level	First Place	5
	Second Place	4
	Third Place	3
Faculty Level	First Place	2
	Second Place	1.
	Third Place	0.5
Recipient of Patent		8
University approved Event Organizing		0.5
Inter University Level Competition/Awards	First Place/Best Award	6
	Second Place	5
	Third Place	4
Approved University representation at International Forum/Event		5
Paper accepted/presented at any Conference/Symposia		3
Publication of Books / Holding of Individual Exhibition (Paintings/Arts/Hand crafts/etc.)		2
Contribution to official function of the University		0.5.5.

Special Note:

If the overall score achieved by two or more candidates for the Vice Chancellor's Award is equal, a special panel consisting of the Vice Chancellor, the Deputy Vice Chancellor and the Dean of the relevant Faculty shall re-evaluate the candidates to select the best student.

CHAPTER 09

LEARNING RESOURCES

9.1 Library Facilities

The Library System of the University of Ruhuna is the most advanced academic library in the southern region of Sri Lanka. At the beginning, the library was established at the present Technical College premises in Matara, to comprise the information requirements of the Faculty of Humanities and Social Sciences in 1981. In 1986 the library premises were shifted to its present location at the Wellamadama university premises to cater to two founder faculties. At present, the Ruhuna University Library is providing services to ten faculties by expanding the library network towards five branch libraries in addition to Main Library. These branch libraries are at the Faculty of Agriculture at Mapalana, Faculty of Engineering at Hapugala, Faculty of Medicine at Karapitiya, Faculty of Allied Health Science at Mahamodara and Faculty of Technology at Karagoda Uyangoda, Kamburupitiya. Main Library which is located in the Wellamadama university premises mainly serve five faculties; Faculty of Humanities and Social Sciences, Faculty of Fisheries and Marine Science & Technology, Faculty of Science, Faculty of Management and Finance and Faculty of Graduate Studies at Wellamadama premises.

The Library, Faculty of Technology is at Karagoda Uyangoda, Kamburupitiya, it was set up in the temporary building until the new library building construction is completed. The Library, Faculty of Technology contains books and periodicals which are specially focused in Engineering Technology, Information and Communication Technology, Bio systems Technology, and General Reading. Any library user who is registered in the University library system can access any branch of the library to fulfil their information requirements. In addition to that, services are provided for outside communities too.

9.2 Staff of the Library

Library Staff of the University consists of 11 academics, two administrative staff members and 40 paraprofessionals to cater to the library and other information needs of the patrons.

9.3 Library Opening Hours

Opening hours of the library vary according to the time of the academic year and faculty. Since all the students from any faculty can access any of the libraries in the system, it is important to know the opening

hours of the main library and faculty libraries apart. Opening hours of the Main Library and faculty libraries are listed below.

Opening hours of the Main Library

Description of the period	Days of opening	Hours of opening
Regularly	Monday to Friday	8.00 a.m. to 6.00 p.m.
	Saturdays	8.30 a.m. to 5.00 p.m.
	Sundays	Closed
Study Leave and Examination	Monday to Friday	8.00 a.m. to 8.00 p.m.
	Saturdays and Sundays	8.30 a.m. to 5.00 p.m.
Vacation	Monday to Friday	8.00 a.m. to 5.00 p.m.
	Saturdays	8.30. a.m. to 5.00p.m.
	Sundays	Closed
Public holidays and Poya days	-	Closed

Opening hours of the Faculty of Technology Library

Days of opening	Hours of opening

Saturdays and Sundays	Closed
Public Holidays and Poya Days	Closed

9.4 Library Collections

The library system of the university is mainly consisting of two collections, the library core collection and the legal deposit collection. In the Main Library core collection, there are nearly 300,000 books, 4000 audio-visual devices, 20 titles of printed periodicals and more than 5000 online journals are available. These collections are growing daily with the requirement of the patrons. The legal deposit collection, on the other hand, contains having nearly 280,000 publications made in Sri Lanka since 1996. Additionally, the newly established “Indian corner” is available for the patrons in the main library. This specific collection was donated to the library by the Indian consul general in Hambanthota.

The core collection of the library is further divided into five more sub collections and sections depending on the type of lending, availability, value and relevancy of the materials. Those are Lending (L), Reference (R), Permanent Reference (PR), Sri Lanka Collection (SLC), Colour Plate Collection (CPC) and Periodicals Collection. Lending materials are indexed in the lending section of the library building while the reference and CPC materials are kept for reference in the reference collection.

9.4.1 Lending Section

The lending section is located on the second floor of the Library. Lending section issues books for a period of two weeks to undergraduates. If needed, a patron can extend the lending duration for another 14 days. This extension can be performed through the online user account or over the library counter during the working hours of the desired library.

9.4.2 Reference Section

This section is located on the first floor of the Library. The reference section includes reference materials, Colour Plate Collection and Permanent Reference materials. Reference materials could be borrowed between 3.00 p.m. to 5.00 p.m. in the borrowing date and must be returned before 10.00 a.m. of the following day. Permanent reference materials (such as encyclopaedias, dictionaries, glossaries and other

valuable books) are intended strictly for reference within the library. In addition, the reference library floor is arranged for patrons to use as a reading and working space. Patrons are allowed to take their laptops and other mobile devices in silent mode to the reference section. However, consuming meals and beverages is strictly prohibited anywhere in the library.

9.4.3 Periodical Section

The periodical section is located on the first floor of the Library. The periodical section consists of different kinds of printed periodicals. The collection displays periodicals from the current year and the following year. All the back volumes of printed journals, newsletters, and other printed periodicals are stored separately, and users can request them for reference during the opening hours of the section. The University of Ruhuna Library has subscribed to numbers of online databases with the auspicious of UGC through the Consortium of Academic Libraries of Sri Lanka (CONSAL). Patrons can access to these online databases through the library website (www.lib.ruh.ac.lk). These online databases are IP based and should be accessed through the university network. Apart from the periodicals, a comprehensive collection of past examination papers from the Faculty of Humanities and Social Science, Faculty of Fisheries and Marine Sciences and Technologies, and Faculty of Science are kept in the periodical section. The periodical section of the main library is open from 08:30 a.m. to 04:00 p.m. on weekdays.

9.4.4 The Sri Lanka Collection (Ceylon room)

This collection is arranged in a separate room on the second floor of the main library building. This collection is specific to publications made by authors from ancient “RohanaDeshaya” and Sri Lanka specific library materials. The collection carries invaluable information related to Sri Lanka. The collection consists of;

1. Government publications (Annual reports, statistical reports)
2. Rohana collection
3. Copies of Master's and Doctoral theses of Academic staff and students of the University of Ruhuna
4. Professor Justin Labrooy collection

CHAPTER 11

STUDENT SERVICE FACILITIES

11.0 Student Affairs Branch

There is a Student Affairs Branch with a Senior Assistant Registrar at the University to look after the needs of the students outside their courses. It is located on the second floor of the administration building. Many services such as registration of students, Mahapola scholarships, bursaries, student hostels and cafeterias are operated by the Student Affairs branch.

In addition, this branch coordinates two other important services, Student Counselling Service and Health Service.

11.1 Counselling Service Centre

The counselling centre is located in the Technology Faculty Complex. Counselling service centre's mission is to provide services and programmes, which promote the personal development and psychological well being of students, and to encourage a university atmosphere which is conducive to growth and which maximizes students' educational attainments. Students have the opportunity to discuss their various mental, social, economic problems or any other matters which they face during their University education. Counsellors, who are Senior academics, offer their assistance, advice and guidance to those students in need. Each faculty has its own group of Student Counsellors. In addition, students also have the opportunity to discuss their problems with other academics.

11.2 University Medical Facilities

The medical center and the Dental Clinic are located in a building close to the Department of Physics. There is an also ayurvedic medical center located near bachelor's Quarters. These centers provide health care to staff and students.

Medical Officers:

Chief Medical Officer	: Dr.(Mrs) K Rathnayake
University Medical Officers	: Dr. A Weerasinghe / Dr. L.G.S Yapa
Dental Surgeon	: Dr.(Mrs.) S. Atapattu
Senior Psychological Counsellor	: Mr Pemapala Pathirana

Every student of the university at the first enrollment must face a medical test. The aim of this test is to determine whether the student has suitable health condition to continue the academic career without difficulties. If a student is found to be suffering from a severe disease, he/she is directed to special clinics in the hospital for treatments. During the academic year, the medical centre is open for treatment for students as well as staff from 8.00 am to 5.00 pm on weekdays. All drugs are free of charge. If a prescribed drug is not available in the clinic, the University will reimburse the expenses.

Web site: <https://adm.ruh.ac.lk/medicalcenter/>

11.2.1 Medical Certificates

If a student is unable to attend lectures and/or practical classes due to an illness he/she should inform the university medical officer within a week. If a student wishes he/she can get medical assistance from a government or a private doctor. However, the University medical officer should approve the medical certificates issued by them.

11.2.2 Illness during Examination Period

If a student is unable to sit for the exam due to a medical reason, he/she should inform it officially to the Dean or Assistant Registrar of the Faculty immediately by sending a telegram or letter. He/ She should provide the medical certificates within one week, after completing the medical leave. All the medical certificates should be obtained from the University medical officer, Government Hospitals or Consultant doctors. For more information refer the Internal Circular Number 2015/01.

Whenever necessary students should follow the above procedure in producing medical certificate for smooth functioning of their education during stipulated period of study.

11.3 Financial Assistance

There are several financial assistance programmes to help students finance their education when their own family resources are inadequate. At present, students are offered the following financial assistance for their University education:

- Mahapola Higher Education Scholarships
- Student Bursaries
- Endowed Scholarships operated by UGC or University
- Other scholarships

11.3.1 Mahapola Higher Education Scholarships

The University Grants Commission sends application forms to all University entrees to apply for this scholarship. The student should send the completed forms to the University Grants Commission. The student's parent's income, the number of siblings studying under 18 years of age, the distance from his/her home to the university and the student's rank at district level are considered when granting the scholarship. A merit scholarship is also granted according to student's merits. Amount of money paid for these two scholarships is given in the table below:

Merit scholarship	Rs.5050.00	Per installment
General scholarship	Rs.5000.00	Per installment

Recipients are entitled to maximum 10 installments per academic year for both Mahapola and Bursary scheme.

11.3.2 Bursaries

The students who are not granted Mahapola scholarships are able to apply for bursaries offered by the University. The University calls applications for student loans from University entrees. Family income, the number of siblings studying under 18 years of age and the distance from his/her home to the University are considered when granting the bursaries.

Full student bursary	Rs.4000/=	Per installment
Half student bursary	Rs.3900/=	Per installment

11.4 Hostel Facilities

At present, the University supplies hostel facilities only for a limited number of students. However, further expansion of this facility is envisaged. At present, the Faculty of Technology is equipped with two new hostel buildings: one male hostel and one female hostel. Each hostel can accommodate 400 students and altogether hostel facilities can be provided for 800 students. First year and final year students are given the priority according to the selection criteria. These hostels are looked after by a team consisting of Warden (academic), Sub Warden (Non-academic) and Sub Wardens (Non-academic). A monthly rent of Rs. 50/= is charged from first year and final year students for hostels.

** Please refer ANNEX 4 Code of conduct to be followed by male/female undergraduates for hostels

11.5. Mentoring services

Every student is allocated to a personal tutor/mentor who is an Academic staff member of the relevant department. Students personally can make appointments and meet them when they need the support.

11.6 Grievance Committee

Students can submit their grievances directly to Chairman of the Committee or through respective member of each faculty to the Chairman. Confidentiality of your grievance is strictly maintained.

It is further expected to undertake activities to conserve the regional folk arts and folklore, to collect and conserve the cultural features endemic to this region, to publish classical articles and make documentary films on the traditional performing arts of the South and the artistes of the South. Mr. Deva Michael De Silva, Senior Lecturer in History, Department of History & Archaeology, officiates as the coordinator of the center and Ms. Thanuja Ukwattage who has been appointed by the Cultural Ministry functions as Cultural Officer.

11.10 Resource Centre for Modern Languages

Resource Centre for Modern Languages was established in April 2002 with the aim to provide students with opportunities to study various languages other than "Sinhala" and "English". The activities of this centre are (coordinated & looked after by) a committee of academics, which includes a Director (MS. Ranjani Malavipathirana) and one representative from each Faculty of the University.

Presently, the Language centre conducts classes and the languages of French, German, Japanese, Tamil and Swedish for students with the help of resource persons available in the University academic community.

11.11 Solution center

The solution centre is a computer equipment repair and maintenance centre, which provides hardware maintenance, repair services, equipment replacement and support services for computer equipment and peripherals owned and supported by the University of Ruhuna.

11.12 Robotic club

The students who are interested in innovative creations can join the **Robotics Club**, which is an extra-curricular club where students can learn and apply concepts of science, technology, engineering in a creative and an innovative manner

11.13 Transport Facilities

The Faculty of Technology, University of Ruhuna which is located 11km away from the Godagama-Palatuwa highway Exit, can be easily accessed through land transport.

CHAPTER 12

Career Guidance Unit

Career for undergraduates in Universities was recently recognized as a matter of policy by the Government of Sri Lanka. At the University of Ruhuna, the Career Guidance Unit was set up in March 2000 to provide Career Guidance Services to the undergraduates. Since then, the unit has implemented various programmes to make the undergraduates aware of the employment opportunities available, the professional qualities expected for responding to the job market need. The unit wishes to build up continuous links with the private sector as well as the government institutions to facilitate productive interaction between the undergraduates and such institutions.
